Professional Experience

Arcvale, Tallahassee, FL   June 2022 - Present
Lead Programmer
- Attend weekly project meetings where I provide updates on my work and discuss the direction of the project with the team.
- Perform QA, Integration, and Performance testing for client and internal company projects with other programmers.
- Programming and debugging various systems in internal projects using the Unity game engine, C#, and Visual Studio.

Director of Arcvale: Lucas von Hollen – (352) 219-9704 | lucas@arcvale.com

OpusCare, Miami, FL   August 2023 - Present
Clinical IT Technician
- Help maintain the EHR system used by the hospital by managing user accounts, resolving errors, and installing necessary software and hardware on company machines.
- Train new hires on how to navigate and correctly utilize the hospital's EHR system on tablets, smartphones, and desktops.
- Create Excel spreadsheet reports using data pulled from the hospital database.

Head of Clinical IT: Tony Wong – (305) 607-3664 | tony.wong@opuscare.org

Projects

MySQL Database Project   January 2022 - April 2022
- Created and populated a database with various tables using SQLScript
- Completed reports using the populated tables and SQL commands.
- Compiled all deliverables into a BitBucket repository using git commands.

Online Portfolio Project   January 2022 - April 2022
- Created an example of a portfolio site containing project data from my Bitbucket.
- Created an editable database integrated in the site, demonstrating server and client-side validation for entries.
- Included an RSS Feed section, a simple calculator, and a text comment box.

Both projects can be found on my BitBucket linked below
